

Dr. Robert B. J. Dorion is Director of Forensic Dentistry at the Laboratoire des Sciences Judiciaires et de Médecine Légale, Ministry of Public Security for the province of Quebec since 1973. He graduated with a B.Sc. from St. Francis Xavier University, Antigonish, N.S. in 1968 and a D.D.S. from Mc Gill University, Montreal, QC. in 1972. He is a founding member and past president of the American Board of Forensic Odontology and recipient of the American Academy of Forensic Sciences' prestigious "Distinguished Fellows" award in 2002 and the Odontology section "Lester Luntz" award in 2005.

He has lectured extensively at forensic conferences and universities throughout the world in places like Canada, France, Italy, Puerto Rico, and the United States. He has addressed law enforcement agencies, including the FBI Academy in Quantico and the Canadian Police College in Ottawa, Canada.

In 2000 he received an "Exceptional Service in the Public Interest" award from the FBI Director. A past president of the Canadian Society of Forensic Science, he has served on various committees of forensic organizations in the United States and Canada, as well as serving as consultant to the Law Reform Commission of Canada and to the FBI Dental Task Force, Criminal Justice Information Services (CJIS), National Crime Information Center (NCIC).

An innovator, he launched the first Forensic Dentistry Internet course with the Faculty of Dentistry, McGill University, in the fall of 2004. He has authored articles/chapters for various journals/textbooks/books/manuals on the subject of forensic dentistry. His accomplishments include chapters for the College of American Pathologists and the American Society of Forensic Odontology manuals. He has edited the first stand-alone comprehensive textbook entitled *Bitemark Evidence* released in 2005 and published by Marcel Dekker, New York, NY.
